The process for selecting these venues was carried out in accordance with our finals rotation policy, available on our website. These policies allow clubs to express their interest in hosting finals, taking into account several factors including but not limited to, previous finals hosted, the location of other finals on the same weekend, and the rotation position for the following year. The Board carefully reviews all preferences to ensure a fair and equitable distribution of finals hosting opportunities.

The Central Rivers Board are committed to providing our clubs with the opportunity to showcase their facilities and the dedication of their volunteers. Hosting finals is an important aspect of our leagues, promoting community engagement and providing an exciting atmosphere for all participants and supporters. We extend our gratitude to all the clubs that have committed to hosting finals. Your efforts are crucial to the success of our finals' series and the continued growth of Football and Netball in our region.
